New Delhi, India

PROFESSIONAL SUMMARY

Detail-oriented final-year Computer Science Engineering student focused on Manual QA and software quality, with hands-on experience in functional, UI, API, regression, exploratory, compatibility, and responsive testing. Experienced in test case design, defect reporting, Postman API validation, SQL database checks, Jira workflows, Chrome DevTools, and beginner-level Selenium WebDriver with Python. Strong interest in structured testing, quality documentation, and reliable user experiences.

EDUCATION

B.Tech – Computer Science & Engineering | KCC Institute of Technology and Management | 2023–2027

Dr. A.P.J. Abdul Kalam Technical University (AKTU) | CGPA 8.05/10 (up to 6th semester)

TECHNICAL SKILLS

Testing & QA: Manual Testing, Test Case & Scenario Design, Functional/UI Testing, Regression, Retesting, Smoke, Sanity, Exploratory, Positive/Negative Testing, Equivalence Partitioning, Boundary Value Analysis, Decision Tables, State Transition, Error Guessing, Bug Reporting, Severity & Priority, Compatibility, Usability, Accessibility, Basic Security Testing.

API & Database: Postman, REST API Testing, HTTP Methods, Status Codes, JSON, Response/Field/Header Validation, SQL, MySQL, Database Validation.

Tools: Jira, Chrome DevTools, Selenium WebDriver, Git, GitHub, VS Code.

Automation & Programming: Selenium WebDriver with Python (Beginner), Locators, Assertions, Explicit Waits, Python, C++, SQL.

Web & Core CS: HTML, CSS, JavaScript, DSA, OOP, DBMS, Operating Systems, Computer Networks.

Process: SDLC, STLC, Agile, Scrum, Defect Lifecycle, QA Documentation.

PROJECTS

1. WeatherSphere Pro – Weather Dashboard | HTML, CSS, JavaScript, Open-Meteo API, Geocoding API

- Performed structured manual QA across 30 test cases covering functionality, UI, input handling, responsive behavior, API/error states, and user workflows.
- Recorded 28 PASS, 1 FAIL, 1 NEEDS REVIEW; documented 3 defects with severity and priority.
- Used Chrome DevTools for Console, Network, responsive, cookies, local-storage checks; maintained QA evidence and Jira defect-lifecycle documentation.

2. Tech News Dashboard – News Aggregator & Explorer | HTML, CSS, JavaScript

- Designed/executed 30 manual test cases covering dashboard loading, topic selection, article information, read links, loading behavior, infinite scrolling, refresh, responsive UI.
- Validated all 30 PASS with no confirmed defects in tested scope.
- Captured execution evidence and maintained structured QA documentation.

3. Postman API Testing Collection | Postman, REST API, JSON, HTTP

- Created/executed 6 API test cases for GET, POST, PUT, PATCH, DELETE using JSONPlaceholder.
- Validated HTTP status codes, JSON response fields/values, headers, Content-Type across positive/negative scenarios.
- Maintained reusable Postman collection, Excel test documentation, response screenshots.

4. E-Commerce Manual QA Testing | Manual Testing, Selenium WebDriver, Python

- Created/executed 25 manual test cases covering login, negative login, product behavior, sorting, cart workflows, validation, responsive UI.
- Performed hands-on Selenium WebDriver automation for positive/negative login and product sorting using locators, assertions, explicit waits.
- Maintained test-case and defect documentation; no confirmed defects identified in tested scope.

CERTIFICATIONS

- IIT Madras – Foundation Level in Programming and Data Science, BS in Data Science and Applications.

SOFT SKILLS

Attention to Detail • Analytical Thinking • Problem Solving • Structured Thinking • Time Management • Adaptability • Teamwork • Willingness to Learn.
